

Notice of agreement for kids

Lasertag is a completely safe game with electronic vests where the players compete for the highest score.

Players are equipped with Infrared emitter vests and a phaser, which can tag the vests of different players. The Winner is the team with the highest score.

Before you play, there will be a safety briefing, which all players have to obey. For equipment and person damage, which are caused by not following instructions from our professional staff, I take full responsibility. If my child doesn't obey the rules of our arena, I accept that this can result in exclusion of the game without the right of refund of the game(s) played.

I was advised to check the safety rules on the homepage (www.laserforce-kl.com) and in the arena.

With this agreement I allow my child to play Lasertag at Laserforce Kaiserslautern.
